

Puppy Evaluation Form

Grading 5 being DESIRABLE
Grading 3 being AVERAGE
Grading 1 being UNDESIRABLE

Grading puppies is not always an easy task, many breeders are looking to correct a fault that is heavy within their pedigree. So what may be a show puppy to one breeder, may in fact be a companion to another. This form is being given as a guide to help breeders in their consistency of choice. If you can add anything missing on this evaluation form, please contact us at www.AKITANETWORK.com This grading should be performed to the AKC Akita BREED STANDARD.

TRAIT	1	2	3	4	5
